

Cambrium Product List

Trade Name <i>INCI nomenclature</i>	Description	Applications <i>Use level</i>
NovaColl™ <i>Water, Glycerin, Xanthan gum, sh-Polypeptide-47, Sodium benzoate, Citric acid, Potassium sorbate</i>	Bioidentical anti-aging collagen polypeptide bio-designed with AI and produced via precision fermentation. Provides multi-action benefits to minimize wrinkles, restore dermal density and improve skin tone. Low molecular weight (7kDa) allows enhanced skin penetration.	Anti-aging Anti-wrinkles Skin tone Skin barrier <i>Use level: 1-10%</i>
RevaBond™ <i>Water, Glycerin, sh-Polypeptide- 47, Sodium benzoate, Citric acid, Potassium sorbate</i>	Bio-designed with AI and produced via precision fermentation, RevaBond™ is the natural solution for hair bond repair. By repairing cystine bonds, it restores strength and hydration for holistic hair rejuvenation.	Hair bond repair Hair strength Hair hydration Hair frizz control <i>Use level: 1-10%</i>
LumaCell™ <i>Saccharomyces/Wort ferment filtrate</i>	High-performance yeast-derived bioactive ferment that revitalizes skin from within the cell and improves skin longevity. It neutralizes oxidative stress, protects DNA and boosts cellular energy to restore homeostasis, delivering a radiant glow and a strengthened barrier.	Skin longevity Cell energy booster Skin radiance Skin barrier <i>Use level: 1-10%</i>
EvoSance™ <i>Water, Glycerin, Hydrolyzed sh-Polypeptide-47, Citric acid, Papain</i>	Dual action bioactive that primes the scalp and stimulates hair follicle vitality. Delivers bioactive peptides for hair rejuvenation to help reduce hair loss, enhance hair bulb and cellular vitality, trigger new hair growth, support healthy hair growth and strengthen the hair fiber from the inside out.	Hair growth Follicle vitality activator Hair strength Healthy hair & scalp <i>Use level: 1-10%</i>
